

DriMop®

Liquid Absorber

Advantages

- Specially formulated pouch bursts open in the presence of a wide range of fluids to quickly immobilize them.
- Solidified material is easily contained by an outer vessel, shipping container, or other such device, resulting in safer handling.
- Available in a wide range of sizes with customized sizes available for specific needs.

Applications

- Containment of:
 - Aqueous Solutions
 - Biohazardous Fluid
- Test Kits
- Lab Trays
- Medical Specimens
- Test Tubes, Vials and Medical Containers
- Medical Red Bags
- Kick Buckets
- Specimen Shipping Containers
- Sharps Collectors
- Protection of Package During Transport

DriMop® Liquid Absorber

Super absorbent DriMop Liquid Absorber from Multisorb Technologies quickly absorbs a wide range of aqueous solutions for efficient containment of spills. DriMop Liquid Absorbers offer the ideal solution for the shipping, storing, and handling of aqueous solutions that must be contained.

Pouches

DriMop® Pouches are available in a broad range of sizes. Customized sizes can be produced for specific needs. DriMop pouches are also available in strip form for use in automated dispensing systems. Standard sizes are: 0.5 gram, 1.5 gram, and 5.0 gram.

DriMop® Liquid Absorbing Packets

DriMop® Laminate Sheets for Added Convenience

DriMop Laminate Sheets are a fiber-based paper bonded with the same immobilizing powder as the DriMop pouch. This gives the same fluid control protection as the pouches in areas where space is at a premium. The sheets offer effective fluid control in almost any size or shape container. Standard sizes are: (3x5) in, (3x6) in, (4x5) in, (6x6) in, and (12x12) in.
